

## From Saliba's Extended Care Pharmacy: Stay Strong, Stay Healthy, Persevere

In these challenging times, the mission of our long-term care pharmacy members brings these health care providers many remarkable stories, experiences, and moments. Stories of determination, sacrifice, endurance, resiliency, kindness, and care.

The following is a simple but profound letter of thanks and support to nurses and caregivers from Saliba's Extended Care Pharmacy. The video sends a message that we, here at MHA, echo.

*Our core purpose is **Helping the Caregiver**. As all of you work tirelessly to care for your residents, risking your own health in the process, we are more proud of this mission than ever. It is our honor and privilege to serve you as you face this pandemic on the front line. The link below leads to a video that our team put together to express our appreciation for all you do, and as a pledge of our support. Please know that we are here to help you in any way we can. Never hesitate to call on us if you need anything.*

*Stay strong, stay healthy, and persevere. You are always essential; but now, more than ever, you are an indispensable component of our healthcare infrastructure, and of our united defense against the onslaught of COVID -19.*

*Sincerely,  
John Saliba, RPh  
President*

**Sharing your own story** is easy: simply send your story to [info@mhainc.com](mailto:info@mhainc.com). Want to read more stories? Visit the [MHA Member COVID-19 Responses](#) page on our website, [www.mhainc.com](http://www.mhainc.com).
